

ALOE EASY™

TECHNICAL DATA SHEET

ATTRIBUTES AND BENEFITS OF OUR ALOE

Our lands have excellent condition for the growth of the aloe plant, which added to the Sonora sun and the adequate dosage of water and nutrients for the growth of the plant, generate aloe leaves of high nutritional value for the consumer and totally suitable to prepare aloe gel for sanitizing purposes. Aloe is recognized for its antibacterial, antifungal and antiviral properties, backed by more than 4,000 scientific documents that support it. It is the ideal product to mix with alcohol and prepare a sanitizing gel.
